MEMORANDUM

SUBMITTED BY

GRAM SEVAK SANGH, MUNDKUR VILLAGE,

Mangalore Taluk, South Kanara District.

Sirs,

1 We, on behalf of the Villagers of Mundkur beg to bring to your kind notice the following urgent needs of the village:-

2 Mundkur is a village having a population of about 5,000 with 1,000 houses and with great facilities for minor irrigation works. It is isolated by rivers and streams which are not easily fordable. Its normal development has been given a serious set back on account of Sankalakaria river on the south, Golithattu river in the east and Nanilthar stream in the north. Although three bridges are quite necessary, we request that atleast one bridge for the Sankalakaria river may be put up out of the Central Road Development grant for the year 1957-58 or at least in second five year plan. In this connection we may be permitted to say that the villagers have put up the six miles road from Belman to Kinnigoli and handed over the road including the sites with Nanja fields free of cost to the District Board of South Kanara about 30 years back. Under Vipen Schems we are told that this bridge was included and was expected to be completed some five years back. This bridge if constructed will open the road which will run right in the middle of the District and will facilitate interlinking of village roads.

3 Another important and urgent need of the village is to put up a permanent Basement and some permanent structure on either side of the Moolky river at the site where a temporary mud bund at a cost of Rs. 3,000/- is being put up by the villagers every year. By so putting up a permanent structure it will facilitate putting up of a temporary mud bund by the villagers We think this will not cost much and this may be investigated by the concerned department.

4 We are told that a scheme for extension of electricity from Mangalore to Mulki has already been sanctioned under Rural Electrical Scheme. We request that the same may be extended to this village situated in the first block of the Community Project Scheme of South Kanara District as it will help the ryots for the installation of pump sets for the irrigation purposes and also for the development of cottage industries.

5 We thank you for giving us an opportunity to present this Memorandum.

Yours faithfully,

President,

GRAM SEVAK SANGH, MUNDKUR.
